Product Data Import

- We want to have the same option with Products as show in this picture.

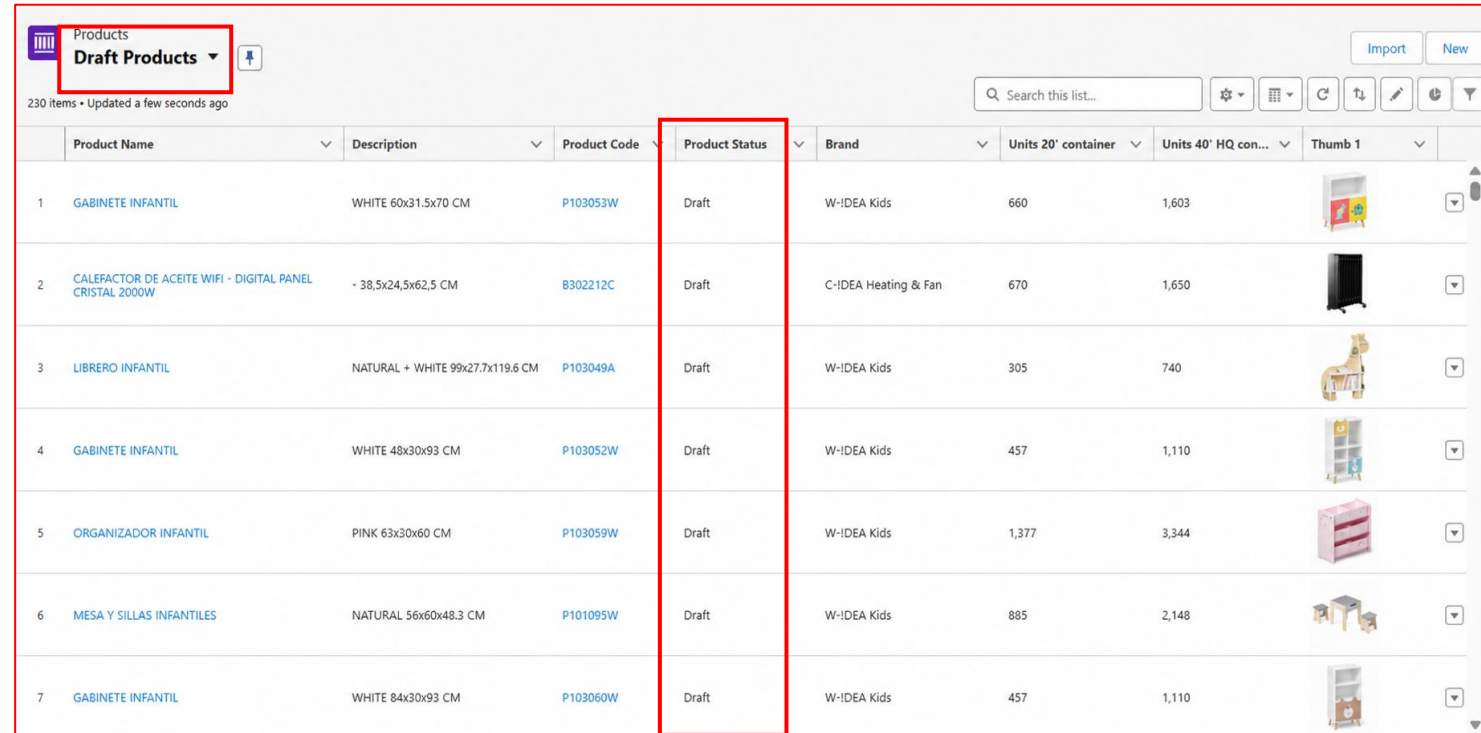

The screenshot shows a product management interface. At the top right, there are two buttons: 'Import' and 'New'. The 'Import' button is highlighted with a red rectangle. Below these buttons is a search bar labeled 'Search this list...' and a row of icons for settings, view, refresh, sort, edit, delete, and filter. The main part of the interface is a table with the following columns: Product Code, Product Status, Brand, Units 20' container, Units 40' HQ con..., and Thumb 1. The table contains four rows of product data.

Product Code	Product Status	Brand	Units 20' container	Units 40' HQ con...	Thumb 1
P103053W	Draft	W-IDEA Kids	660	1,603	
B302212C	Draft	C-IDEA Heating & Fan	670	1,650	
P103049A	Draft	W-IDEA Kids	305	740	
P103052W	Draft	W-IDEA Kids	457	1,110	

Product Data Import

- After imported the products.
- All imported products will have a status of “Draft”
- User has to link / add new factory

The screenshot displays a web application interface for managing products. At the top, a header bar includes a 'Products' dropdown menu with 'Draft Products' selected, a search bar, and buttons for 'Import' and 'New'. Below the header, a table lists 7 products. The 'Product Status' column for all products is 'Draft'. The table columns are: Product Name, Description, Product Code, Product Status, Brand, Units 20' container, Units 40' HQ container, and Thumb 1. A red box highlights the 'Draft Products' dropdown and the 'Product Status' column.
